

FOR SALON OWNERS

Your best customers don't quit loudly. They just stop coming.

A regular who visited every month suddenly hasn't been in for ten weeks — and you only notice when the chair sits empty. Chairful watches your booking history and tells you **exactly who has slipped away**, so you can bring them back with one message on WhatsApp.

1

Spot it

Chairful reads your booking history and flags the regulars who have quietly stopped coming.

2

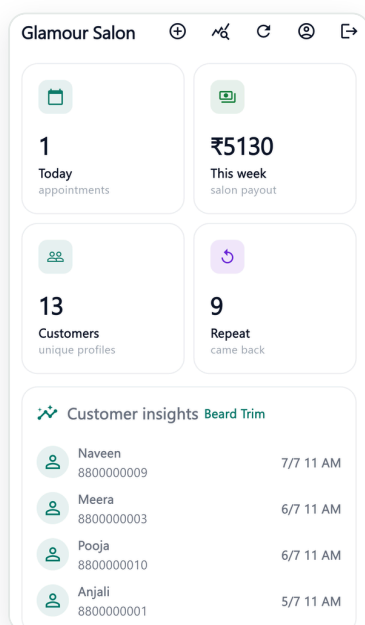

Reach out

One tap opens WhatsApp with a friendly message already written for that customer.

3

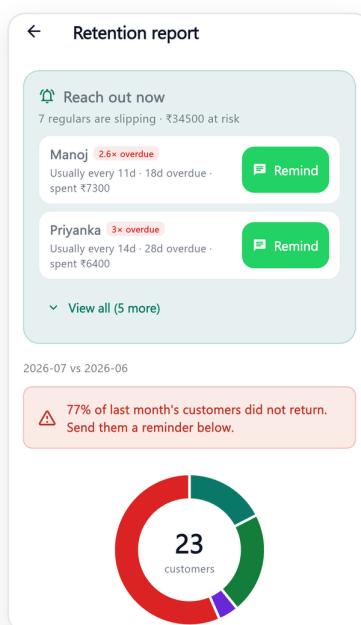

They come back

You fill a chair you didn't even know was empty — from customers you already have.

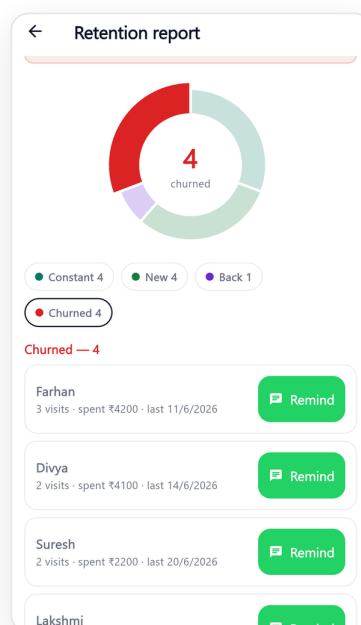

See your salon at a glance

Today's bookings, staff and revenue in one clean screen.

Know who to call today

Chairful ranks the regulars who are slipping away.

Win them back in one tap

A ready-to-send WhatsApp message, already written.

Why owners choose Chairful

- ✓ **It makes you money, not just charts.** Most salon apps only take bookings. Chairful tells you which customers to win back — that's revenue you already lost.
- ✓ **Simple enough for the whole team.** Clean, fast, no training needed. If you can use WhatsApp, you can use Chairful.
- ✓ **Built for real salons.** Made for independent salons in India — not for big corporate chains.
- ✓ **Your data stays yours.** We never sell your customers' details, and we don't show ads.
